

# Loreto Convent Entally (2021-2022)

***Every child is precious***

## Principal's message

*Do not be anxious, but in every situation, by prayer and petition, with thanksgiving, present your requests to God.*

Philippines 4:6

The new academic session began as the world found itself battling with a new deadly variant of the Corona virus. Against this background and a year of online teaching gone by, we were compelled to raise our hopes and move on with greater vigour and enthusiasm. As the year unfolded, it brought new dimensions to the teaching – learning process. Innovative and creative methods got integrated into the system. The curiosity of students was whetted. National and international webinars covering almost all areas of interest made the classroom a miniature world forum.

It is rightly said that every cloud has a silver lining. The Loreto Convent Entally family made the most of the new normal and absorbed the goodness of the online mode of teaching. New plans for Vocational training and introduction of Pre nursery in the next academic session also took birth this year.

I would like to thank our parents for the immense cooperation and appreciation given to the school. Thank you dear teachers for opening up your hearts and homes and ensuring that no child was left behind.

The year gone by has taught us that challenges make life interesting. Overcoming them together is what makes life meaningful. May the Almighty God continue to shower his choicest blessings on this family.

## Superior's message

The way to Mt. Everest is full of difficulties, many died while attempting to reach the summit. But successful climbers do not perish in mountains and accept failure. They make their way back to tell their stories; humans are born to win. In our initial effort, we might fail but we are bound to succeed if we do not give up in despair. Success comes to those who believe in the beauty of their dreams.

Nothing is impossible, the word itself says "I" am possible – Audrey Hpburn.

It makes me happy to see everyone, especially students taking the next step despite of challenges along the way due to pandemics. In the past two years, life has changed a lot;

we were never prepared for the uncertainties that pose questions and dilemma regarding the wellbeing of people at different levels. These are the years in which we have done things like we have never done before and these are the years which have opened a new way of thoughts, innovation and sentiment. We have grown together in strength as a school community, with staff, students and parents all demonstrating incredible compassion, care and buoyancy.

The energy and enthusiasm exhibited by the students are contagious, and it is commendable to see them excel in such a wide of activities, both curricular. Every year I get great joy from witnessing students and staff achieving new heights buy being prepared to challenge them and aim for excellence.

Let this institution be a place for growth and development for all, may your life be filled with happiness and compassion.

## Head Girl's message

The last two years have been very difficult both for students and teachers. The sudden change from offline to online was difficult to adapt but we braved all the difficulties with steadfast faith. As the head girl of the school I found it challenging to communicate and motivate others to keep going but Superior Sr. Flora, Principal Ma'am Mrs. Surana and teachers were always there to support and guide me. We were able to organize online events with ease. I thank my teachers, Sisters and Principal Ma'am for finding me capable for this position and the students for trusting me.

Leadership is skill that comes with power to change and influence others. As Mahatma Gandhi rightly said - "Be the change that you wish to see in the world." The school has reopened and I wish the Student Council of 2022-23 all the best. Together as a team accomplish great things and take the school to a higher pedestal. Learn from your mistakes and move forwards without any grudges.

**KASHISH AGARWAL**

## BACK TO THE NEW NORMAL

"Eventually all things fall into place. Until then, laugh at the confusion, live for the moments, and know **EVERYTHING HAPPENS FOR A REASON.**"— Albert Schweitzer. We were standing on one side of a massive river of uncertainty and hardship. We are now on the other side of the river heading towards a beautiful future. After a long spell of online learning from home, we were all excited to return to our second home. Coming back to school for offline classes after a long hiatus was a major change in our life. Lockdown has made everyone more anxious and stressed, but I would like to thank our Principal Ma'am, Sisters, and Teachers who were always there to support us even during such difficult circumstances.

**Neetika Agarwal**  
Class XII

When the lockdown was announced in March 2020, we were happy that schools would be closed for a long time without being aware of its consequences. Eventually, the excitement wore off and we became spiritless. The circumstances were disorderly but our teachers supported us through it all.

Now that schools have reopened, I wake every morning excited to go to school and make the most of my last year in the place I call my home. Our teachers welcomed us with open arms and are a constant pillar of strength and guidance. Our first offline activity conducted was the farewell for the outgoing batch, was executed brilliantly. "I do not run away from a challenge because I am afraid. Instead, I run towards it because the only way to escape fear is to trample it beneath your foot" – Natalie Comaneci. This quote defines the journey of students and teachers and the hardships we overcame in the past two years.

**Gangotri Laskar**  
Class - XII

Coming back to school feels overwhelming. The first day seemed different as it was a long duration of two years since we were in school. Though we got the benefit of receiving proper education through the comfort of our homes, but at times, long hours of online classes caused stress and headaches. I had eagerly been waiting to come back for in-person classes as the concentration level is more and I would get to meet my friends regularly. I am very contented to be back to school.

**Rittika Gupta**  
Class - XI

It was very difficult to stay at home because of the pandemic. After two years the lock down is over and the New Normal has come in. I think the reopening of the school was very necessary for all children. We can interact with the teachers physically and clear our doubts and queries. I feel that listening from teachers in person is much more effective than the online classes.

**Sanjana Shaw**  
Class - XI

# VIBRANT HUES'21 PANCHABHUTA

*Vibrant Hues'21 presented 'Panchabhuta' – the five great celestial elements – Prithvi, Jal, Agni, Vayu and Akash. It was held on the 21<sup>st</sup> August, 2021 on a virtual platform. This celebration covered the spectrum in the form of dance, storytelling, art and craft, singing and being in tune with nature. Fourteen Loreto schools from all across India participated in this event.*
